

NARCCAP

The Earth System Grid (ESG), Data & Knowledge Systems, & A Few Useful Tools

NARCCAP User Workshop - February 15, 2008

Don Middleton

National Center for Atmospheric Research
Computational and Information Systems Lab

NCAR

It's like having a bunch of dead elephants in your living room. You can't really push them around very much, and they just lie there and decompose...

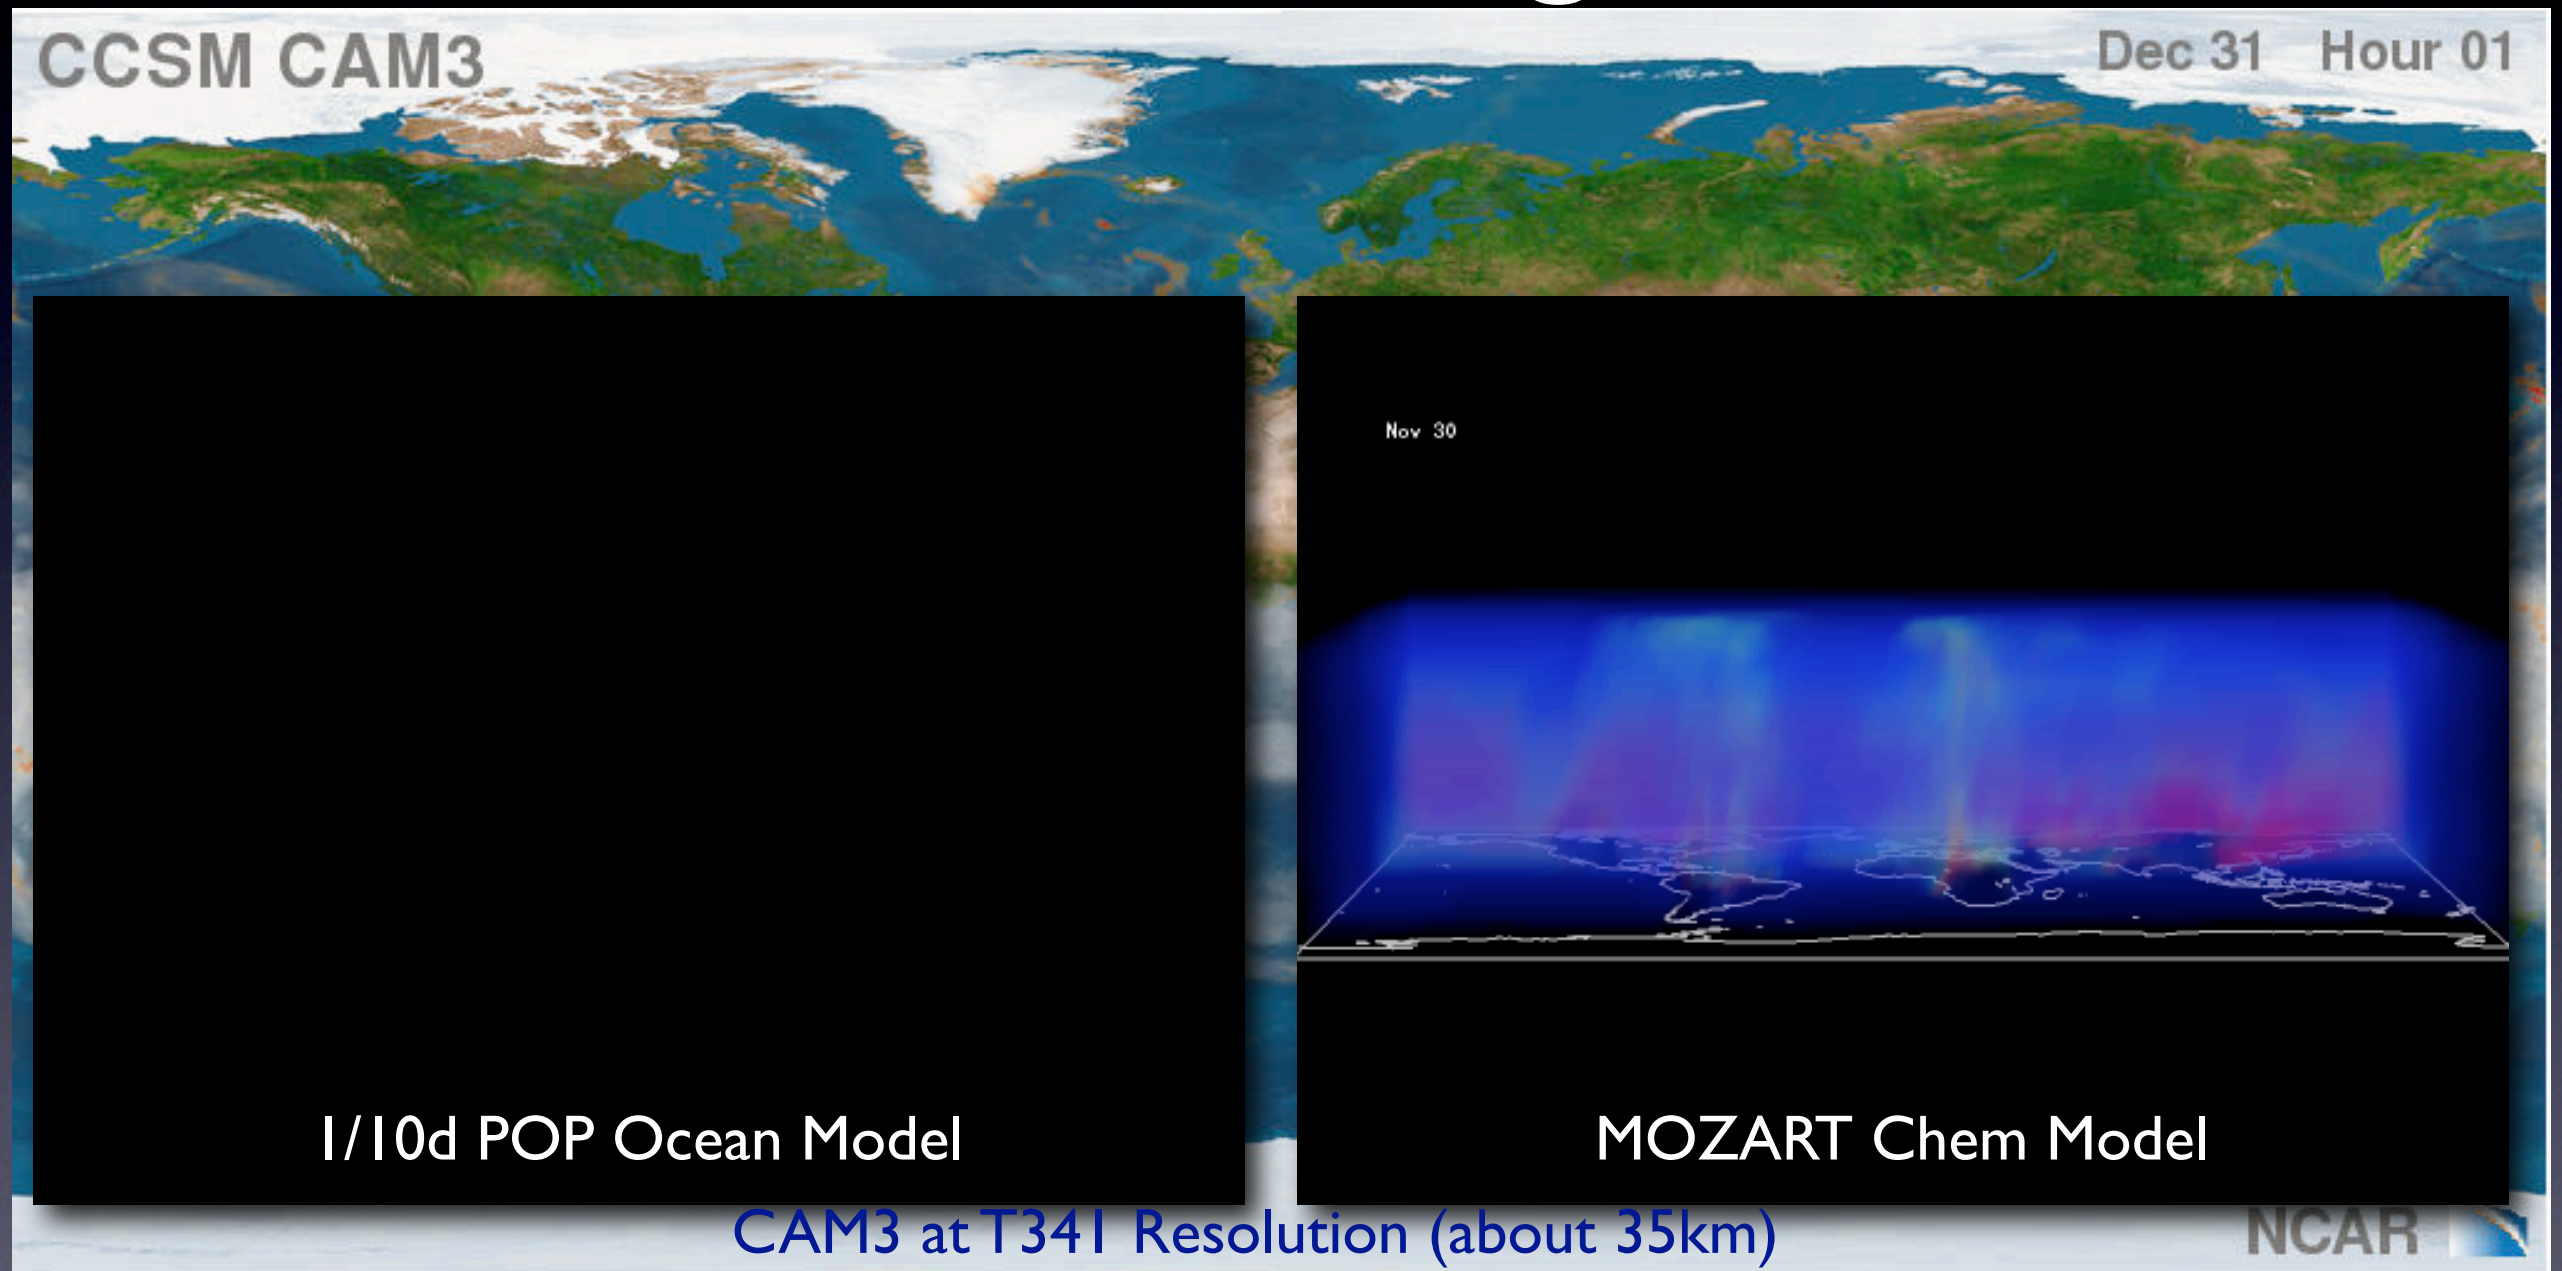

The Honorable Dr. Phil Duffy ;-)

Peace

The Nobel Peace Prize 2007

"for their efforts to build up and disseminate greater knowledge about man-made climate change, and to lay the foundations for the measures that are needed to counteract such change"

Intergovernmental Panel on Climate Change (IPCC)

The NCAR Command Language (NCL)

An Open Source software package for processing, analyzing, and visualizing geoscientific data

- Handles NetCDF, GRIB1,2, HDF4, HDF-EOS, binary
- Over 800 computational functions, many geoscience-specific including focused CCSM & WRF support
- Quantitative visualization, publication-quality
- Responsive and knowledgeable support - a community of thousands of users in 73 countries
- Several training workshops each year
- Distribution for most Unix systems, Mac, Windows

NCAR

NCL & Python

Just released: PyNGL and PyNIO - Python interfaces to NCL's visualization and data handling capabilities

- Software available from <http://www.earthsystemgrid.org>
- Hundreds of examples at www.ncl.ucar.edu and www.pyngl.ucar.edu
- Contact haley@ucar.edu
